of utmost important and urgency to... fulfillment of their missions for the security of the United States." The memorandum says that a project submitted to ONR by Professor Richard Wendt of the University of Rochester (NY) had been approved by all the agencies involved and recommended funding the project. The file indicates subsequently that this project did go forward and involve human experimentation.

^{Another} The second file dealt with project "CALLING CARD," 1952-1953, designed "to render an individual subservient to impose will or control." FBI was not mentioned.

FD-5 (As In Progress) relates only to information detection of deception

A memorandum dated 9/5/50 for Mr. D. J. Parsons, FBI; [redacted] and Captain Wilbur E. Kellum of Naval Medical Research, from W. S. Post, Jr. (not further identified), informed them that a copy of the report on the "Ellson" project (University of Indiana, 1952) was being forwarded to them for information. The project involved research in the detection of deception. The addressees were to be briefed by Professor D. G. Ellson of Indiana University on the project at a future date. The file did not show that the briefing occurred. The project was terminated in June, 1952.

JFK (B)

The two files reviewed contained many reports of research conducted concerning various drugs in various parts of the world, constituting a collection of papers on the subject by U. S. and foreign researchers.

A review of logical Bureau files by the Laboratory Division disclosed only one reference (62-2699-75) to the above. This was a memorandum, 8/4/50, recording that Mr. Alberti, ONI, had informed Liaison that the Navy had been developing a new drug which might be used to great
